Introduction

The Hull History Centre is home to the Hull City Archives, the Hull Local Studies collections and the University of Hull Archives, and between us we hold archive collections, local studies collections and books, photographs, newspapers, maps and plans.

Finding what you are looking for can prove daunting, so we have created a number of guides to help you.

This guide relates to Amy Johnson, the world-famous pilot who was born in Hull in July 1903, became the first woman to fly solo to Australia in 1931, but died tragically young in January 1941.

Many of the books in the reading list can be borrowed from our library if you are a member of Hull libraries. If you are not yet a member, you can join when you visit the Centre.

The items listed within the Local Studies and City Archives relate to records found within collections not necessarily wholly relating to Amy Johnson, but which may prove useful to your research. There is only one collection solely related to Amy, and that is the collection of letters to Hans Areggar at L DIAJ. These letters have been digitised and can be viewed via our [Amy Johnson Letters](#) web page on the History Centre web site.

These lists are not exhaustive and our [on-line catalogue](#) may also help you to find what you are looking for. Type Amy Johnson into the search engine and it will bring up any records or books we hold relating to her.

Once you have found what you are looking for you can e-mail or phone us to order the item/s to view in advance of your visit by contacting us on hullhistorycentre@hcandl.co.uk or 01482 317500. Please place your order at least 24 hours in advance of your visit. As some of these items are on microfilm, we may also have to reserve a microfilm for your use.
